

Stella Barbarella - SOC Analyst Portfolio

Hello, I am Stella Barbarella, a Security Operations Center (SOC) Analyst with a focus on turning complex security alerts into actionable insights. I specialize in SIEM tuning, phishing incident response, and threat hunting. Recently, I reduced alert fatigue and response time by 40% for a client by implementing custom playbooks and smart rule configurations. If you're looking for fast and efficient action in your blue team, let's connect.
